

# Save Energy at Home with Natural Gas Efficiency

Save money, improve comfort and ensure a cleaner environment with energy savings offers for residential natural gas heating customers from National Grid.

- ENERGY STAR® Thermostats
- Outdoor Boiler Reset Controls
- High-Efficiency Heating Equipment
- High-Efficiency Water Heaters
- Online Energy Analyzer

**nationalgrid**

The power of action.™

Wouldn't it be great if you could save money, improve the efficiency of your home, and help ensure a cleaner environment? You can with efficiency from National Grid.

**Follow these steps to participate:**

- 1) Consult your qualified heating contractor or plumber.
- 2) Complete this application and determine anticipated rebate.
- 3) Return application with a copy of your dated invoice or receipt. (Remember, your invoice or receipt must include the complete model number of each unit installed.)

**Mail to: National Grid Efficiency**  
 40 Washington Street, Suite 2000  
 Westborough, MA 01581  
 1-866-716-8099

For questions please call **1-866-716-8099**,  
 e-mail [ngridinfo@efi.org](mailto:ngridinfo@efi.org) or visit

**2009 Residential Energy Efficiency Rebates**

PRODUCT	REBATE
<b>REPLACEMENT THERMOSTATS**</b>	
ENERGY STAR rated programmable thermostats** Maximum 2 per household.	\$25/ea.
<b>OUTDOOR BOILER RESET CONTROLS</b>	
Add on unit attached to forced hot water boiler	\$100
<b>HIGH-EFFICIENCY HEATING EQUIPMENT</b>	
Furnaces (forced hot air) AFUE* ≥ 90% rating	\$200
Furnaces (forced hot air) AFUE* ≥ 92% rating & ECM† motor	\$400
Furnaces (forced hot air) AFUE* ≥ 94% rating & ECM† motor	\$600
Boilers (steam with electronic ignition) ≥ AFUE* 82% rating	\$500
Boilers (forced hot water) AFUE* ≥ 85% rating	\$500
Boilers (forced hot water-condensing) AFUE* ≥ 90% rating	\$1,000
<b>HIGH-EFFICIENCY WATER HEATERS</b>	
Indirect water heater attached to a natural gas ENERGY STAR forced hot water boiler	\$300
<b>DUCT AND AIR SEALING</b>	
Duct and air sealing by BPI certified/accredited contractor†	up to \$600

\*\* Programmable thermostats must be installed by a contractor at the time of a furnace or boiler replacement.

\* AFUE = Annual Fuel Utilization Efficiency

± ECM = Electronic Commutated Motor

† Duct and air sealing must be assisted by blower door and duct blaster testing, and be completed by a BPI certified/accredited contractor. The receipt must include pre and post blower door and duct blaster readings and materials installed.

# Residential Natural Gas Energy Efficiency Rebate Application

**Please review terms and conditions. Form must be completed entirely.**

Customer: \_\_\_\_\_ National Grid Gas Account #: \_\_\_\_\_  
(Name and address where equipment was installed)

Street: \_\_\_\_\_  Existing Dwelling  New Construction

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_ Phone: \_\_\_\_\_

### Work Completion and Rebate Validation.

I hereby affirm the following Prescriptive Energy Efficiency Equipment has been installed. I acknowledge that all work is subject to on-site work verification and inspection as may be required by state and local law and by National Grid. I am aware of and agree to the Terms & Conditions stated on the reverse side of this application and am attaching copies of itemized proofs of purchase and invoices for the installation performed.

**Customer Signature:** \_\_\_\_\_ **Date:** \_\_\_\_\_

Upstate New York

Equipment installed from 6/1/09 to 12/31/09 is eligible. Rebate form and required documentation must be post marked by 1/31/10. One account number per form. Some restrictions may apply. Rebate offers are subject to change without notice.

# Home Performance with ENERGY STAR®

Take advantage of the incentives\* available through Home Performance with ENERGY STAR offered by the New York State Energy Research and Development Authority (NYSERDA).

- Get an expert assessment of your home by a participating Home Performance Contractor
- Find exactly where you're losing energy and how to fix it
- Low-interest financing
- Income-eligible households qualify for a grant of up to \$5,000

\*Customers cannot receive National Grid rebates and incentives from NYSERDA for the same equipment.

Through a Comprehensive Home Assessment, a participating Home Performance Contractor can determine areas of your home where energy efficiency, comfort, and health and safety improvements should be made. Using special diagnostic equipment, a series of tests and visual inspections check the efficiency of appliances and heating and cooling equipment. In addition, your contractor can find where air is leaking out of your home. When the assessment is complete, you'll receive a report of recommended improvements, the cost of each improvement, and estimated payback.

NYSERDA's Home Performance with ENERGY STAR Program uses a network of independent home improvement contractors who are accredited by the Building Performance Institute (BPI). BPI is a national resource for building science technology that sets standards for assessing and improving energy performance, health and safety of homes. BPI-accredited contractors are trained to take a "whole-house" approach — one that considers how the house works as a system.

To find a Home Performance Contractor near you, call 1-877-NY-SMART or visit [www.getenergysmart.org](http://www.getenergysmart.org) for information.

## Have You Analyzed Your Home Energy Use?

A home energy assessment is the first step in making your home more efficient. An assessment will check your home energy use and provide recommended measures you can make to improve efficiency and save money.

Try our [Online Energy Analyzer](http://www.thinksmarthinkgreen.com) for a quick and easy way to evaluate your energy use and receive customized tips. Visit [www.thinksmarthinkgreen.com](http://www.thinksmarthinkgreen.com).

# National Grid Residential Energy Efficiency Programs Terms & Conditions

- Incentives** - Subject to these Terms and Conditions, this program is offered by Niagara Mohawk Power Corporation (the "Company"). The Company, through its contractual vendor, Energy Federation Incorporated (the "Vendor"), will pay incentives to eligible customers in the Company's Service Territory, for the purchase and installation of the equipment/products described in this literature and within this application.
- Customer Eligibility** - New equipment installed from 6/1/09 to 12/31/09 is eligible. It must have been new equipment installed at the installation address listed on this application and the required documentation listed must be postmarked no later than 1/31/10. Customer must be a gas heating customer of the Company in Albany, Columbia, Fulton, Herkimer, Jefferson, Madison, Montgomery, Oneida, Onondaga, Oswego, Rensselaer, Saratoga, Schenectady, Warren or Washington County in New York State. Check [www.thinksmarthinkgreen.com](http://www.thinksmarthinkgreen.com) frequently for program updates or installation extensions.
- Post-Installation Work Verification** - The Company reserves the right to perform a verification of the specified installation. If the Company and/or Vendor determines that the equipment was not installed in a manner that is consistent with program guidelines, the Company and/or Vendor may require that the installation be modified before making any incentive payments. The cost of such modifications is the responsibility of the customer. I hereby authorize the Company to release my energy use information to Energy Efficiency Program Sponsors (EEPS) and System Benefit Charge (SBC) program administrators and/or its designee. I understand that such information will be kept confidential and used only for the purpose of determining program eligibility and energy savings.
- Incentives** - All installations must be completed in conformance with state and local code requirements and by a licensed contractor or plumber to qualify. Customer self-installations do not qualify for rebates. Customers cannot receive a rebate from National Grid and incentives from NYSEERDA for the same equipment.
- Proof of Proper Installation** - As part of its incentive application, the Customer is required to submit dated copies of all paid invoices documenting the installation (including all materials, labor and equipment invoices) which reflect the actual cost of purchasing and installing the equipment.
- Indemnification** - Customer shall defend, indemnify and hold harmless the Company and its officers, directors, employees, agents, servants and assigns from and against any and all losses, claims, demands and/or liability for damage to property, injury or death of any person, or any other liability incurred by the Company, including all expenses, legal or otherwise, arising out of or related to the equipment or installation, except to the extent attributable to the negligence of Company. In no event shall Company's liability to Customer exceed the incentive amounts.
- Limited Scope Review** - The scope of review by the Company and the Vendor and their inspector of the installation of the equipment is limited solely to determine whether incentives are payable. It does not include any kind of safety or code review and should not be relied upon as one.
- Incentive Amounts** - The Company will provide incentives for approved heating, water heating, thermostat or boiler reset control equipment, up to incentive amount indicated in the program literature and within this application. If more than ten (10) units of high-efficiency heating equipment and/or water heating equipment are installed in a single dwelling, the Customer must obtain pre-approval from National Grid for incentive funds to be reserved.
- Payment** - The Company, through the Vendor, expect to make incentive payments to eligible customers within 45 days of a satisfactory work verification. The customers must refund any incentive made to the extent the contractor or equipment does not satisfy program requirements.
- No Warranties** - The Company and the Vendor do not endorse, guarantee or warrant any particular contractor, manufacturer or product installation. The Company and the Vendor do not make any representation of any kind regarding the results to be achieved by the equipment or the adequacy or safety of such equipment.
- Changes in the High-Efficiency Heating, Indirect Water Heating, Thermostat(s) or Boiler Reset Control Program** - Equipment Incentive Program/Tax Liability Conditions and details of the High-Efficiency Heating and Indirect Water Heating Incentive Program are subject to change without prior notice and incentive offers may increase or decrease over time. The Company reserves the right to modify or terminate the Incentive Program without notice. Participants of the program may be subject to tax liability for the value of goods and services received through the program pursuant to state or Federal income tax codes. The Company is not responsible for any tax liability which may be imposed as a result of receipt of the rebate by the Customer.
- Contractor Insurance** - The Company is not responsible for any damage that may be caused by or arise out of an installation of any equipment. The customer is responsible for selecting Contractors who are qualified and carry adequate insurance coverage.

National Grid is one of the largest investor-owned energy companies in the world. In the US, we serve nearly 5 million electric and 3.4 million gas customers in Massachusetts, New Hampshire, New York and Rhode Island. Save energy and money with our award-winning efficiency programs. **Visit [www.thinksmarthinkgreen.com](http://www.thinksmarthinkgreen.com).**

Additional energy efficiency services may be available from the New York State Energy Research and Development Authority. For more information visit [www.getenergysmart.org](http://www.getenergysmart.org).
