

Comfort-Caire®

The Unitary residential equipment market is changing quickly. With new Tax Credits and Rebates available, new skillsets are mandatory. Our course will cover heat-pump models, applications, controls, and the correct installation and startup procedures to help avoid common pitfalls.

Here's what you'll learn:

- Basic heat pump operation, design options, tops/tricks and design examples.
- Cold-Climate ASHP vs. Variable-Capacity vs. Single-Stage HPs
- FOCUS: HP Controls and Troubleshooting
- FOCUS: Application, Sizing, Load Calculation, and Selection
- FOCUS: HRG15 Single-Stage, HRG18 Variable-Capacity, VMH Single/Multi-Zone Mini, and VCD ccASHP
- Installation and startup procedures, best practices
- Inflation Reduction Act Rebates, 2025 Refrigerant Updates, and so much more!
