

N&S Supply M&P Installation & Service Essentials

Thursday - Friday, March 26-27, 2026

COURSE DESCRIPTION:

This course provides an in-depth discussion of the techniques associated with properly installing an M- or P-Series system. Instruction focuses on best practices, limitations, and manufacturer's requirements as they pertain to wiring, addressing, refrigerant piping, equipment installation, and refrigerant charge. It also focuses on the service and troubleshooting of M- and P-Series systems. The concepts and theories of M- and P- system operation including electrical and refrigerant circuits are covered in detail. The resources and techniques to troubleshoot M- and P-Series systems are discussed and reinforced with practical hands-on exercises. This course is recommended for installers and service technicians. We recommend bringing a laptop to the course.
