NYS Clean Heat

What is the NYS Clean Heat Statewide Heat Pump Program?

Heat and cool your home with a heat pump.

The warmer, cooler, cleaner way to heat and cool your home. Are you using oil, propane, or electric baseboards as your primary heating source? Heat pumps are a better, more efficient way to keep your home comfortable all year long, without the use of fossil fuels.

Rebates & Financing

New York State and energy companies offer rebates, financing and tax credits.

Registration REQUIRED via Email Link Below. Thank you!
